“The Zika Virus in Brazil: lessons for health communicators from the field”

Please join us for an important talk by Dr. Frederico Peres
Brazilian Ministry of Health

June 8 2016
10:00AM – Noon
Hunter College
Silberman Bldg
2180 Third Ave (119th Street)

Dr. Frederico Peres is a senior researcher at The Oswaldo Cruz Foundation, Brazilian Ministry of Health. He has extensive experience in Public Health with emphasis on Occupational and Environmental Health, mainly in the areas of: occupational health, pesticides, environmental health, risk perception, risk communication, health education and health literacy. Dr. Peres will be talking about public understanding of Zika and Dengue health education campaigns in Brazil.

Refreshments following talk.
We hope you will join us.
