## Arts Across the Curriculum: It's Easier Than You May Think

Please join us for an exciting Teaching Tuesday event, where the Arts Across the Curriculum Planning Committee will promote a vibrant exchange of ideas about the use of arts in programs and classes at Hunter College. Committee chair Prof. Rebecca Connor will present on her Fall '11 Gothic course, which is both interdisciplinary and infused with the visual, material and performing arts.

*A follow-up discussion will consider the following:*

- What are we doing already in our courses that includes the arts in all of its forms?
- How we can all bring high culture and popular culture into our classrooms to create a more engaging student experience?
- How we can encourage arts-focused collaborations among Hunter's broad spectrum of disciplines?
