The National Healthcareer Association develops and publishes the certification exams for health professions: medical assistant, phlebotomy, EKG, pharmacy technician, medical billing and coding, administrative medical assistants, patient care technician and electronic health records.

What requirements must you meet to earn your seat in the NHA national certification exam?

- You must have successfully completed a training program from an accredited institution within the last 5 years
- You must have a high school diploma/GED or equivalency

Candidates whose date of graduation or completion from their training program is five years or more prior to the date of application, also must have the following work experience: Work Experience Candidates must have at least one (1) year of supervised work experience in the health field covered by the NHA certification exam within the past three (3) years. For more information, please check the NHA website for the NHA manual.
