Other Policies (i.e. this is where things get a little mean):

Do not cheat. Do not think about cheating. If something you’re thinking about doing has even a whiff of academic dishonesty around it, do not do it. If I catch you cheating, I will give you a 0 on that assignment, and I will do everything possible to make sure that you receive an F in the class and are punished to the fullest extent allowable by college rules. Unfortunately, I actually had to do this during the Fall 2016 semester. It made me sad (I love to see students succeed), but ethics are the foundation of science, so I really had no choice.

Do not use your cell phone during class. Ever. Not even as a calculator (just use a calculator). I used to have a long explanation here about what I’d do if people repeatedly used their cell phones, but it makes me sound like such a grouch. Just don’t do it, ok?
