

Carol A. Silverman, PhD, MPH, CCC-A
PUBLICATIONS:

A. Books and Chapters

- Silman S, Silverman CA (1996). Acoustic-Immittance Tests. In SE Gerber (Ed.), *The Handbook of Pediatric Audiology*. Washington, DC: Gallaudet University Press. Pp. 104-144.
- Task Force on Geriatric Communication Problems [Wheeler DG (ed.), Clark LW, Mannly CA, Mullaney N, Sonnenberg J, Casper JK, Silverman CA, Greene RY, Montano JA], New York State Speech-Language-Hearing Association (1993). *Geriatric Communication Disorders*. New York: Brookdale Center on Aging of Hunter College.
- Silman S, Silverman CA. (1991). *Auditory Diagnosis: Principles and Applications*. San Diego: Singular Publishing Group (2nd Printing, 1997). (1st Printing, San Diego: Academic Press).
- Silman S, Parkhurst C, Emmer MB, Silverman CA, Cherry R, Rubinstein A (Eds.). (1988). *Proceedings: International Congress on Auditory Evoked Potentials, New York City, October, 1986*. Brooklyn, NY: Brooklyn College and Department of Speech, Brooklyn College.
- Miller MH, Silverman CA (Eds.). (1984). *Occupational Hearing Conservation*. Englewood Cliffs, NJ: Prentice Hall.
- Miller MH, Silverman CA. (1984). Audiometric and audiologic aspects of occupational hearing conservation programs. In MH Miller & CA Silverman (Eds.), *Occupational Hearing Conservation* (pp. 151-181). Englewood Cliffs, NJ: Prentice-Hall.
- Bosatra A, Russolo M, Silverman CA. (1984). Acoustic-reflex latency: State of the art. In S Silman (Ed.), *The Acoustic Reflex: Basic Principles and Clinical Applications* (pp. 301-328). New York: Academic Press.
- Silman S, Gelfand SA, Piper N, Silverman CA, Van Frank L. (1984). Prediction of hearing loss from the acoustic-reflex threshold. In S Silman (Ed.), *The Acoustic Reflex: Basic Principles and Clinical Applications* (pp. 187-203). New York: Academic Press.

B. Refereed articles

- Silverman CA. (8/9/2010). Multifrequency tympanometry and otoacoustic emissions in infants and children. *AudiologyOnline*. Invited article.
http://www.audiologyonline.com/articles/article_detail.asp?article_id=2341
- Silverman CA, Schoepflin JR, Linstrom CJ, Gilston NS. (2010). Repair issues associated with cochlear implants in children. *J Otol Neurotol*, 31:926-931.
- Silverman CA, Linstrom CJ, Gilston N, Schoepflin JR. (2010). Repair issues associated with cochlear implants. *Cochlear Implants International*, 11 (Suppl 1): 469-472.
- Litner J, Silverman CA, Linstrom CJ, Arigo JV, McCormick SA, Yu G-P. (2009). Original Studies. Tolerability and Safety of a Poly-L-Lactide Eustachian Tube Stent Using a Chinchilla Animal Model. *J Int Adv Otol* 5(3):290-293.
- Silman S, Emmer MB, Silverman CA. (2009). Distortion product otoacoustic emissions that are not outer hair cell emissions. *J Am Acad Aud*.20(5):306-310.
- Emmer, MB, Silman S, Silverman CA, Levitt H. (2009). Temporal integration of the contralateral acoustic-reflex threshold for a 1000-Hz tonal activator and its age-related changes. *J Am Acad Aud*.20(4):225-228.
- Linstrom CJ, Silverman CA, Yu G. (2009). Efficacy of the bone anchored hearing aid for single sided deafness. *Laryngoscope* 119(4): 713-720.
- Silverman CA, Silman S, Emmer MB, Schoeflin JR, Lutolf JR. (2006). Auditory deprivation in adults with asymmetric, sensorineural hearing impairment *J Am Acad Aud*.17:747-762.
- Emmer MB, Silman S, Silverman CA, Levitt H. (2006). Temporal integration of the contralateral acoustic-reflex threshold and its age-related changes. *J Acoust Soc Am*. 120(3):1467-1473.

- Wu ZW, Silverman CA, Linstrom CJ, Tessema B, Cosetti M. (2005). Objective computerized vs. subjective analysis of facial synkinesis. *Laryngoscope* 115:2118-2122.
- Linstrom CJ, Silverman CA, Colson D. (2002). Facial motion analysis with a video and computer system following treatment of acoustic neuroma. *J Otol & Neurotol* 23(4):572-579.
- Linstrom CJ, Silverman CA, Rosen A, Meiteles LZ. (2001). Bone-conduction impairment in chronic ear disease. *Annals Otol Rhinol Laryngol.* 110:437-441.
- Linstrom CJ, Silverman CA, Rosen A, Meiteles LZ. (2000). Eustachian-tube endoscopy in patients with chronic ear disease. *Laryngoscope* 110:1884-1889.
- Silman S, Silverman CA, Emmer M. (2000). Central auditory processing disorders and reduced motivation: Three case studies. *J Amer Acad Audiol* 11:57-63.
- Linstrom CJ, Silverman CA, Susman WM. (2000). Facial-motion analysis with a video and computer system: A preliminary report. *Am J Otol* 21:123-129.
- Silverman CA (1998). Audiologic assessment and amplification. *Primary Care: Clinics in Office Practice* 25(3):545-581.
- Silman S, Jerger JF, Fanning B, Silverman CA, Emmer MB (1998). The telephone-ear phenomenon and asymmetric suprathreshold speech recognition. *J Amer Acad Audiol* 5:380-384.
- Silverman CA, Silman S (1995). Acoustic-immittance characteristics of children with middle-ear effusion: A longitudinal investigation. *J Amer Acad Audiol* 6:339-345.
- Silverman CA (1995). Pure-tone characteristics of children with middle-ear effusion. *Semin Hear* 16(1): 99-104. Invited article.
