

MATH 100

For a general introduction to the following topics, visit the indicated site from KHAN ACADEMY. (NOTE: the links branch out into further detailed subtopics and some links merge other topics as well.)

- binomial theorem
<http://www.khanacademy.org/math/precalculus/#math/precalculus>
- probability, permutation and combination, venn diagrams, binomial distribution
<http://www.khanacademy.org/math/probability/#>
- normal distribution, binomial distribution, variance, standard deviation
<http://www.khanacademy.org/math/statistics/#math/statistics>
- solving linear equations and expressions
<http://www.khanacademy.org/math/algebra/#solving-linear-equations>
- matrices
<http://www.khanacademy.org/math/algebra/#algebra-matrices>
