

## Letter from the Academic Director

Dear students and friends,

I am very pleased to announce that the IELI will be offering a new program starting in the Summer 2017 semester. The General English Program will allow us to offer potential students a flexible, effective and very affordable option in the pursuit of their English language goals.

In this expertly-designed program, students will work on increasing their overall fluency in English through a curriculum that focuses on improving their speaking, listening, reading and writing skills, as well as their grammar knowledge. The classes are taught by professional teachers with years of experience and a dedication to helping all students succeed. This program is ideal for students who want to improve their English for a variety of purposes, including business, travel and personal enrichment. The General English Program includes 10 levels, making it ideal for all learners from Beginner to Advanced. It also offers up to 18 hours of instruction per week, which makes it suitable for F-1 visa students.

Because many students have busy schedules, this program is designed to be as flexible as possible. Like in our Academic Skills Program, we will offer five semesters a year. However, in the General English program, students can enjoy the benefit of open enrollment, which means that they can join the class during any week of the semester.

The General English Program tuition costs \$1,500 per semester, making it a very cost-effective way to learn English. This price makes an education at a world-renowned institute accessible to many more students and for a longer period of time.

I hope that the General English Program will be a good fit for your needs and I hope that you will join us this summer and let us help you reach your goals!

Sincerely,

Olga Bichko  
IELI Academic Director
