*Note:* Only deans or associate deans in the sciences are included on this table. Vita Rabinowitz, one of the GEP Co-directors and Provost, and Judi Bubnell in Hunter College's Provost's Office provided information about the deans.

*Note:* Judi Bubnell provided information about the Hunter central administration. Administrators at Hunter do not hold faculty positions while in administrative ranks. These tables represent those administrators whose backgrounds are in the sciences (e.g., one administrator holds a JD and has not been a faculty member; this person was not included in the table above).

*Note:* Judi Bubnell provided information about center directors on 16 March 2006. Only center directors that are also Hunter science faculty are included on these tables (e.g., Director of Center XXX is a Full Professor in a Hunter science department).
