

Adobe Acrobat Connect Pro System Requirements for Meeting Hosts

To ensure that your computer and network connections are properly configured for Adobe Acrobat Connect, go to https://na1.connect.adobe.com/common/help/en/support/meeting_test.htm

Operating System and Browser Requirements:

Windows Vista

- Internet Explorer 7.0 or higher
- Mozilla Firefox 2 or higher

(Note: You need to have cookies enabled on your system)

Windows 2000, XP (Win XP recommended for hosts/presenters)

- Internet Explorer 6.0 or higher
- Mozilla Firefox 1.5 or higher

(Note: You need to have cookies enabled on your system)

Mac OS X 10.4, 10.5 (PPC/Intel)

- Safari 1.1 or higher
- Mozilla Firefox 1.5 or higher

Additional requirements:

- Adobe's Macromedia Flash Player 9.0 or higher (Go to: <http://get.adobe.com/flashplayer/> to download the free Flash Player)
- Minimum bandwidth requirement: DSL/Cable (wired connection recommended)
- Minimum 1 GHz processor recommended when screen sharing

***Additional Hardware recommendations if you will be using audio or video for your meeting:**

1. A headset with a built-in microphone (with a USB connector, rather than a headphone plug connector) to reduce audio echo and feedback. We often recommend the Logitech ClearChat Pro USB Headset.
2. Webcams come in various types as well. We have listed a few we recommend below:
 - Logitech Quickcam Pro 9000
 - Microsoft Lifecam VX5000
3. An inexpensive option for a standard microphone is listed below:
 - Logitech 980186-0403 Silver USB Connector USB Desktop Microphone
 - Labtec 980182-0403 Desk Microphone 524

*Note: These hardware requirements are optional for users who will participate in the meeting via telephone (audio conference).
