Influenza Vaccine Waiver
(If vaccine waived, submit this form.)

Influenza is easily spread from person to person and those infected can be contagious before any signs of the flu are present. Young children, the elderly, and those with chronic health problems are at particular risk for complications from the flu.

I understand that if I do not receive the influenza vaccine, I am at greater risk of acquiring influenza and exposing patients, other healthcare providers, fellow students, faculty, and my family to influenza.

Please check both statements:

_____ I decline the influenza vaccination at this time. I have been informed and understand the possible risks of acquiring Influenza.

_____ I will wear a mask when in patient care areas at my clinical placement sites. *

I understand that some health care/clinical agencies may not allow students who have not received the Influenza vaccination to participate in a clinical placement at their site.
