

The WHAT-IF \* function can be used in situations to simulate a change of major/minor, Catalog-Year changes, etc. so that a student's courses can be redistributed against the new requirements.

## WHAT-IF tab

5 easy steps!

STEP 1: Once you have logged into the CUNY Portal (www.cuny.edu) and have selected "Student Advisement/DegreeAudit (DegreeWorks)," [TIP: Make sure to select Hunter *if* you have to select from more than one CUNY school] then click on the "What If" Tab.

**STEP 2:** Change the degree selection if needed.

NOTE: DIG will default to student's current Degree program.

**STEP 3:** It is very important that you select the correct Catalog year from the drop down menu in order to view the correct and corresponding requirements.

**REMINDER:** Major and/or minor requirements may vary based on Catalog-Year. For Major/Minor requirements, students follow the Catalog-Year that corresponds to the semester when Major/Minor is declared or changed.

\*Remember, "WHAT-IF" audits are not "saved" in the DIG system. Students must complete the appropriate forms, and obtain the necessary permissions, in order to officially declare or change major/minor selections.

STEP 4: Make your selection of Major(s) and/or Minor(s) as needed. Your choices will appear within the "Chosen Areas of study" area after each selection. NOTE: If you select something incorrectly, you can highlight the item and click on the "Remove" button.
