# Evaluation Guide

Please compare the key numbers below with the sample evaluation provided.

1. Name of previous institution.
2. Dates of attendance at your previous institution.
3. Course title at your previous institution.
4. General Education Requirement credit. The GE Code\* refers to the Core Requirement category to which the course may be applied. For detailed information, see the General Education Requirement (on page 25) in the Hunter College [Catalog](#).
5. Hunter College course equivalent.
6. Elective credit toward the Hunter College degree. If you believe this course may fulfill a major, minor, pre-requisite or general education course requirement, you need to obtain a course equivalency. In order to obtain a course equivalency, you must submit a course description from your previous institution, along with your unofficial Hunter College ESIMS transcript, to the appropriate academic department. The departmental advisor will determine if the course has a Hunter College equivalent or if it can be used to satisfy a general education requirement ([Departmental Directory](#)). Keep a copy of this form and submit the original to the Admissions Office prior to the end of your first semester. The equivalency will be applied to your academic record.
7. Credit value granted, based on a semester system.
8. Total Credits granted.
9. ELECT (M) - 00000 means credit granted for major.
10. (Pend) – Granted for courses(s) currently in progress. No credits will be granted until an updated official transcript is received indicating satisfactory completion of the course(s).

If you are currently attending another college or university, you may find that the courses from your last semester are not listed. If this is the case, please send an updated official transcript from that institution once you receive your grades. Official transcripts may be sent to: Hunter College, Admissions Office, Attn: Evaluations, 695 Park Avenue, Room 203 North, New York, NY 10065-5085.
