Submission Instructions

Contributors are invited to submit abstracts of individual papers, pre-organized group presentations, experiential workshops or posters. No more than two abstracts will be reviewed for any author. The first author of an accepted abstract will be expected to be the presenter.

Submissions will be subject to double peer and anonymous review by an International Abstract Review Committee.

Abstracts must be 500 words or less. Abstracts exceeding 500 words will not be reviewed.

Submission Deadline has been extended to November 15, 2013. Participants will receive notification of acceptance or rejection by December 15, 2013.

Because space limitations are such that we can only accommodate 200 conference participants, applicants are encouraged to apply early and abstract submissions will be processed on a first-come, first-serve basis.

You can submit your abstract by completing our online submission form.

The conference language is English. Special Issues of Social Work in Health Care and Social Work in Mental Health will be devoted to peer-reviewed paper submissions from the conference.
