**Committed to advancing social work in the 21st century.
Ready to serve the profession.**

I am pleased to have the opportunity to run for Vice President of NASW. In my professional career I have promoted and advocated for professional social work practice through elected and appointed positions at local and national levels.

As Vice President, I look forward to contributing to the development and advancement of initiatives that strengthen the visibility and understanding of social work and social workers within and beyond our professional circles. I see these functions as primary roles of our association. Prioritizing the critical and strategic use of NASW's resources must be at the forefront. In this regard I believe that my diverse and substantial experience as a social worker and my active engagement with NASW will be invaluable in service to the role of Vice President.

My platform is based on the commitment and promotion of social work's cultural significance; one that mounts and implements effective programming, and promotes social work practice through policy and legislative agendas.

A handwritten signature in black ink that reads "Darrell Wheeler". The signature is written in a cursive, flowing style.
