Deepen your TF CBT practice with bimonthly consultation call-based supervision. Consultation calls offer small group supervision to consolidate practical knowledge in this evidence-based model. Calls involve case presentations where the clinician is using TF-CBT, discussion of strategies to engage the child/adolescent and his/her caregiver, and ways to implement the TF-CBT components effectively. This is a proven method to help integrate practice methods. **Requires you have completed 2 day TF CBT training and carry a TF CBT case.**

**Expert Trainer: Carrie Epstein, LCSW-R**

**First and Third Wednesday of the month for six months (13 calls)**
