Trauma-Focused Cognitive Behavioral Therapy (TF CBT) 2 Day Training

Trauma-Focused Cognitive Behavioral Therapy is proven to be highly effective in improving symptoms and adaptive functioning of children (ages 6-18) exposed to traumatic life events, as well as helping the parent/caregiver participating in treatment. This two day workshop will provide clinicians with training in how to provide TF-CBT and to implement this model.

Thursday & Friday December 13 - 14, 2012
9 am Registration and 9:30 am – 5:00 pm Training / Training Fee $225

Pre-Training Requirement: Participants must complete TF-CBT Web course before the two day training: http://tfcbt.musc.edu/. The online course takes 5-8 hours to complete.

Space is limited and is offered on a first some first serve basis.
