

Name: Michael Cedeno

Degree: B.A., Film Minor: Philosophy, June 2006

Current Job: NY1, Audio Operator/Master Control Operator

How did you decide on your major?

I decided to major in film because the subject interested me. I have always had an interest in movies and technology and film has both, so I decided to go for it.

Why did you choose Hunter College?

I decided to go to Hunter College because Hunter has a reputation for being a very creative institution. In other words, since Hunter is a liberal arts school, it gave me the ability to expand my horizons in almost any career path.

Internships: (MTA) Transit Transit News, Fox Local News, Good Day New York

Briefly describe your current job

As of right now I have 2 specific roles at NY1. As Audio Operator I do the sound for the news and make sure the viewers can hear the anchors and reporters talk, and hear the music that we provide. As Master Control Operator I make sure NY1 stays on the air. So, if we go black or somehow our air freezes (like, a frozen picture), I have to make sure NY1 gets back on the air!"
