PORT AUTHORITY

THE LARGEST AND BUSIEST BUS TERMINAL IN U.S.

HISTORY

By 1939, growing interstate bus traffic was big issue. So, Mayer Fiorello LaGuardia and people need to resolve it.

On January 27, 1949, ground was broken for hardening foundation.

On December 15, 1950, the Port Authority Bus terminal was born which had been taken close to two years and \$24 million.

625 8th Ave | New York | NY | 10018

The Port Authority Bus Terminal which is located in the heart of Manhattan is the largest bus terminal in U.S. By 1939, the plan of construction was mentioned and the building was built in late 1950. It is also one of the busiest places in the world. The P.A said that 65million people passed through the terminal. In addition, as largest bus terminal, there are a travel bureau, a bakery, restaurants, a post office, etc in the building. By using this bus terminal, you go to close places, like NY and NJ, or far places, like PA and MA.

Jinsung Jang - jinsung3753@gmail.com

Hi, my name is Jinsung Jang. I'm in Level8 at the Hunter's IELI. I had to choose places in NY to publish my first article. Then, I chose the Port Authority because it is the most familiar place to me who live in NJ, always take the bus and pass through the bus terminal four or five times a week. After researching, I realized that it is really helpful and essential foundation for me and for all citizens (though it always has incidents, accidents and delay).
