

## Quick Setup Guide

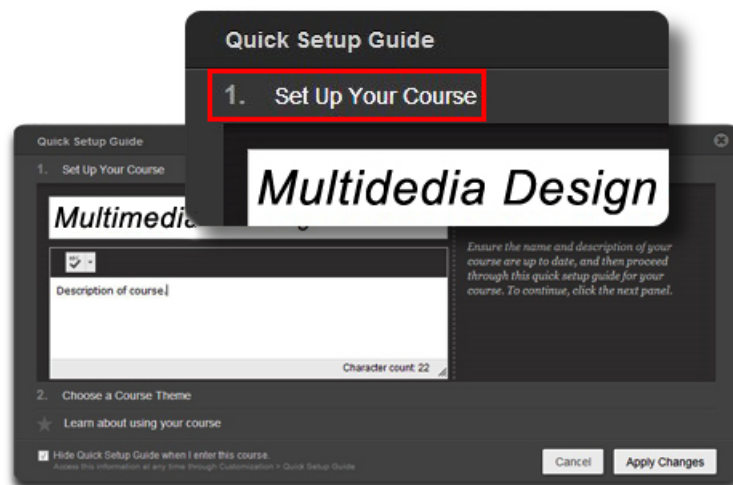

The **Quick Setup Guide** allows you to quickly set up your course. You can modify the course name and description, pick a course structure, and choose a theme.

### Quick Setup Guide

1. In the **Control Panel**, select **Quick Setup Guide** under **Customization**.

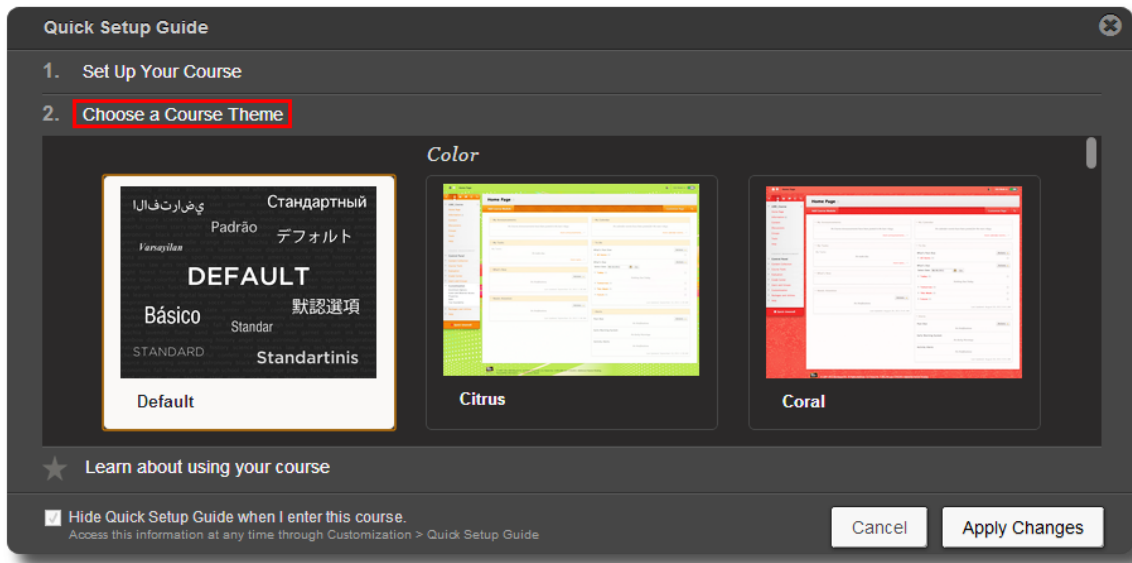

2. **Set Up Your Course** allows instructors to update the course name and the course description.

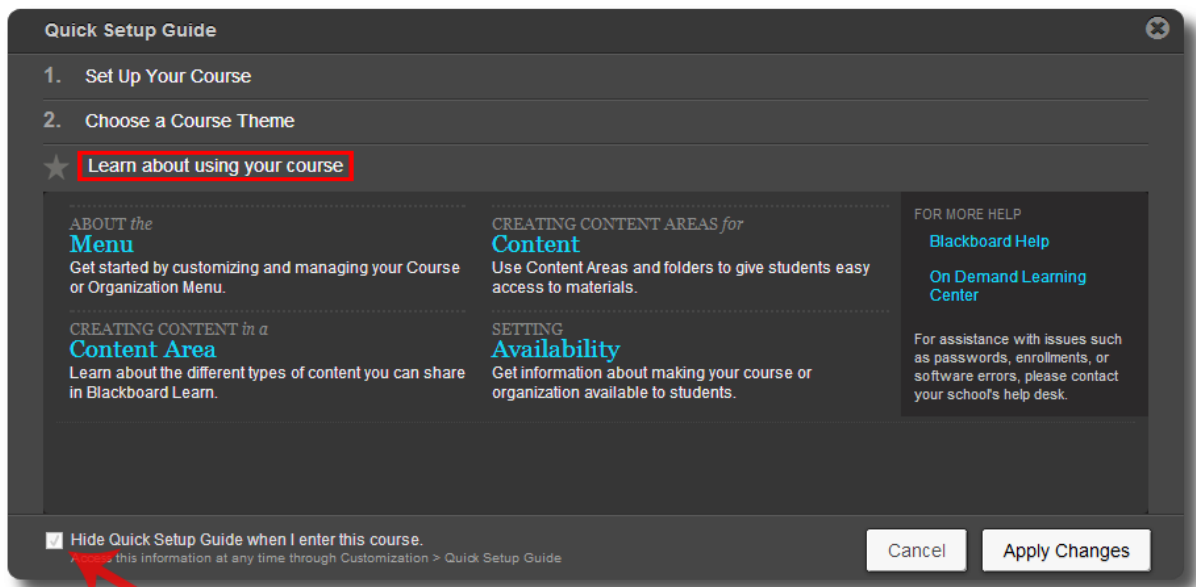

3. **Choose a Course Theme.** Click on the course theme of your choice. This feature is strictly for aesthetic purposes.

**Note:** Once the changes are applied, you cannot revert back to the current theme view within the Quick Setup Guide. The 'Default' option is not the Hunter default, but the Blackboard default.

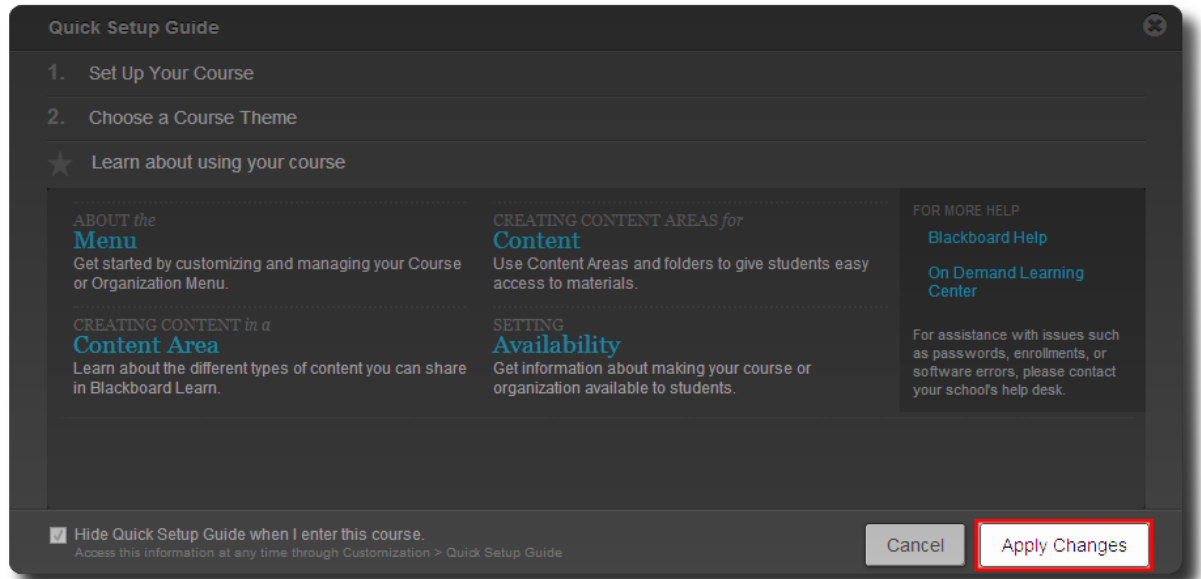

4. **Learn about using your Course** offers resource links on how to get started using your course and application support.

**Note:** The quick set up guide can easily be suppressed by checking the box in the lower left corner of the window

5. **Apply changes** to save your selections to the course.
