

Outlook Exchange - Apple Mobile Device

Overview:

You can use a mobile device to access your **Exchange** account. On this page you will find the settings **ActiveSync/Exchange** to set up your **Apple** mobile devices.

If you set up an **Exchange/ActiveSync** account on your Apple device, the information you sync includes e-mail messages, calendars, contacts and task data!

Use these settings to access your **Exchange** e-mail on an Apple mobile device:

Server:	mail.hunter.cuny.edu
Domain:	hunter
Username:.	Your Hunter Netid
Password:	The password you use to access your email account

Apple Mobile Device:

- Tap **Settings > Accounts and Passwords > Add Account.**
- Tap **Microsoft Exchange.**
- Enter you Hunter email in the **Email** text box. In the **Description text box**, enter what you would like to name the account on your mobile device.
- Tap **Next** on the upper-right corner of the screen. A dialog box will then open. Select **Sign In.**
- Using the table above, enter in the pertinent information..
- Tap **Next.**
- Choose the type of information you want to synchronize between your account and your device, and then touch **Save.** By default, Mail, Contacts, Calendars and Reminders are synchronized.
