*Note: Make sure you download the correct version for your computer's operating system.

Once you have downloaded the Juniper VPN Client file (NCInst64.exe), please follow the instructions below:

1. Once the client has been downloaded, locate the file and double click on the file (NCInst64.exe):

2. As the program extracts, you will see the following window on your screen:

🖞 Juniper Network Connect 7.1.14 Setup: Installing	
Extract: dsNcAdpt.sys	
Output folder: C:\Users\Henry\Desktop Extract: dsNcAdpt.inf Extract: dsNcAdpt.cat Extract: dsNcAdpt.sys	
Cancel Nullsoft Install System	Close

3. Once the extraction is completed, the installation widow will close. The icon named **Juniper Network** will be saved within your other applications.

4. It is preferable to pin Network Connect application to the taskbar for quick launching. You will find the application executable file in the folder shown in pictures bellow:
