		Effective Term Note: Most proposals take 2-3 semesters to be available for student to register.	SPRING OR FALL 2017
<p>Rationale: There is no need to receive permission from instructor before a student can register for this course. It should have been removed when it became a part of the new Minor in CO. We want to encourage students to explore the possibility of a minor through taking this course but no need to establish any restrictive criteria beforehand.</p>

		Effective Term Note: Most proposals take 2-3 semesters to be available for student to register.	Fall 2017
<p>Rationale: We are fixing an error that was made in the original course sequencing for the B.S. degree program. This change is necessary in order not to delay student's progress toward graduation since some students must take COMHE 412 and 413 during the same semester. Skills acquired in COMHE 412 are complementary, not fundamental, to the COMHE 413 Research Seminar course, therefore the change will not impede success in the COMHE 413 course.</p>
