NO. 1

26 August 2016

## Critical Dates for Scheduling Curriculum Development and Implementation

Please note the following critical dates for approving and implementing major program changes. Included in the table below are schedules for the full Senate meetings and Chancellor's Report (CUR) deadlines for the Fall 2016 term. These are presented along with the meetings of Senate curriculum committees in order to facilitate your advance planning. Materials should be received in the Senate office in their complete and final form no later than 12 days prior to the Course of Study meeting in order to appear on the agenda. Meetings may be canceled when there are no items on the agenda.

When planning your curriculum development activities, please remember that no curricular changes may be implemented until they appear in a published CUR that has been approved by the Board of Trustees. It is necessary to allow approximately four weeks for the Registrar's office to update electronic systems to reflect approved changes. Also, note that new curricular programs will take longer to implement because there may be delays in their availability for students through CUNYfirst, which is now updated centrally. Given this, most proposals on or after the November Chancellor's Report cannot have an effective term of Spring 2017. We recommend that the effective term be at least one year in advance.

The full guide to curriculum procedures is available at: <http://hunter.cuny.edu/senate> and further guidance is available in person at the Senate Office. If you have any questions or concerns, please contact the Senate Office to schedule a consultation with the chair of the relevant curriculum committee.

2016 Fall CURs	Senate Submission Deadlines	Senate Meetings	UCSC	GCSARC
October*	9/23	9/21	9/13	8/30 and 9/13

\* The November CUR was moved to October

Proposals for new degrees and some changes in degrees are submitted to the CUNY Committee on Academic Program, Policy, and Research (CAPPR) for their approval after they have been approved by the Hunter College Senate. Hunter will be submitting materials for CAPPR review early in the 2017 Spring term.

The **CUNY Common Core Committees** will grant final approval of courses submitted for the Hunter Core Requirement (HCR). The Senate Office awaits the Fall review schedule.

**Advance Notice** for anticipated major curricular initiatives to be developed in the 2017-2018 academic year is requested by February 1, 2017. Such initiatives include but need not be limited to:

- New courses of study (degree programs, majors, minors, certificates)
- New schools, institutes, centers, departments, or programs
- Substantial changes to existing courses of study
- Program closures

See the tab Curriculum Review and Approval on the Senate website for information regarding the formatting of curriculum proposals.
