

The NLN Assessment Services Division offers high quality assessments to support and validate learning for nursing students and practicing nurses.

PAX Exam

Facilitate admissions decisions through a standardized, high-quality instrument.

The primary purpose of PAX™ is to facilitate admission decisions by providing nurse educators with a standardized instrument to use as a common “yardstick” for evaluating the academic ability of applicants to nursing programs. Inferences from PAX™ test scores can be used as one component in the total evaluation of an individual applicant.
